

Coralville Transit and Parks Facility

Coralville, Iowa

Project Description:

Working with the City of Coralville and Neumann Monson Architects, Hall & Hall provided professional engineering services for the site design and layout of the new Transit and Parks facility. Through green strategies in treating stormwater and native vegetation, we were able to earn a LEED Silver Certification

Services Provided:

- Civil Engineering including:
 - Site Design and Layout
 - Utility Infrastructure
 - Green Drainage and Parking Areas
 - Detailed Site Grading

Project Type:

40,000 sf Municipal Hub Campus

Status:

Completed in 2012 with an estimated construction cost of \$6.5 Million
