

# Boyson Road Trail Extension

*Cedar Rapids, Iowa*

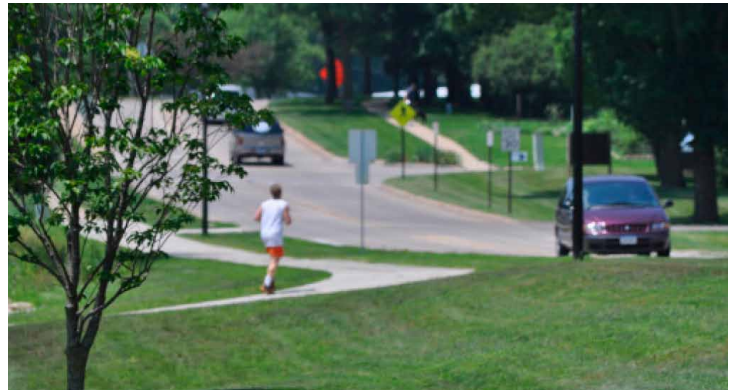

## Project Description:

This project provided a vital trail connection between existing and future trail & park networks throughout the area. This is part of an overall plan to provide an 8' wide trail through Marion and Hiawatha, thus providing connection to the Cedar Valley Nature Trail and Cedar River Trail.

## Services Provided:

- Civil Engineering
- Design and Bidding
- Construction Administration

## Project Features:

- Paved shared use path
- Connectivity to trailhead & adjacent neighborhood
- Boyson Road widening

## Status:

Completed in Fall 2011 with a construction cost of \$375 K
